FOR IMMEDIATE RELEASE

DELTA GROUP ELECTRONICS' ALBUQUERQUE FACILITY  
EARNS NADCAP REGISTRATION

**Albuquerque, New Mexico, October 15<sup>th</sup>, 2010** – Delta Group Electronics, Inc. announced today that its New Mexico operation has received NADCAP certification for its cable and harness operations (AC7121) based upon an audit performed by the Performance Review Institute (PRI).

The National Aerospace and Defense Contractors Accreditation Program (NADCAP) was developed in 1990 by the Society of Automotive Engineers (SAE) to promote manufacturing practices across all aspects of air transportation and defense applications. The NADCAP process assures the manufacturing practices are in accordance with the industry applicable workmanship standards sufficient to meet the Aerospace and Defense classification requirements, e.g. WHMA/IPC-A-620 Class III.

Delta Group Electronics initiated the NADCAP certification process in 2009 as a result of a contractual requirement with one of its Albuquerque customers. After receiving notice of the NADCAP certification, Tod Cummins, Delta Group's Corporate Quality Manager, commented that "The NADCAP qualification process exemplifies the ongoing commitment of Delta Group Electronics to meet the manufacturing requirements of its customers. The Company's quality management system now has achieved the AS9100, ITAR, ISO9001:2008 and ISO13485 registrations and we are excited to add the NADCAP cable and harness registration to the list." The New Mexico facility is currently pursuing NADCAP registration for its circuit card assembly operations and Mr. Cummins believes successful completion of this effort will be achieved by late 2010.

Founded in 1987, Delta Group Electronics, Inc. is a full-service Electronic Manufacturing Services (EMS) company offering turnkey services for its customers in the aerospace, defense and commercial industries. Based in Albuquerque, New Mexico, the Company also has assembly operations in San Diego CA, Dallas TX, as well as Rockledge, FL and Fayetteville, AR, with administrative offices in St. Louis, MO.
